Finding Resources and
Solutions in your
community

We cleaned the lot on Carey Street

Over 20 people turned out for the clean up of the lot in the 200 block of N Carey St. We filled a 30 yard dumpster before 2PM and the lot looks great. I had a great time but I'll be honest, I was a bit sore on Sunday. Thanks to everyone that came out.

Looking ahead for the lot: In early October We met with Civic Works at the lot to introduce them to it. They are excited to help us develop ideas and designs. Everyone, start thinking about what you want the lot to be. We will be putting together a committee to work on the lot design. Do you want to be on it?

Newsletter

Special thanks to Cari Schemm for her advice. This is the first installment of our new monthly newsletter. Be on the look out for it. Every month we will produce this to keep residents informed of the agenda for the upcoming meeting of the community association. In this

way we will all be informed and better able to make an educated decision if we want to come to the meeting that month. The newsletter will list an agenda, including guests, and any issues that we expect to vote on. This does not mean that the meetings will

be limited to these items but will be a general guide. Additionally we will write articles about the previous months accomplishments and upcoming events. If you are interested in being on the newsletter production or distribution committees please contact Scott Kashnow.

Franklin Square Community Association

Baltimore, MD 21223

Hello Franklin Square.

Look it's the Governor

The Franklin Square Family Fun Festival was a fantastic event this year. We sold Chairs and candy, cakes and brownies, some herbs from the OROSW garden and even one tree.

We made a few dollars and signed up some new folks but most importantly we had fun even though it rained a bit on Sunday.

A couple folks from the Community even got to take a picture with the Governor.

Governor O'Malley

Trees in Watershed 263

At the September Watershed 263 Council meeting Parks and People suggested that we start thinking about projects that they could partner with us on. What projects do we have in mind? The only catch is that they must be relatable to water quality issues.

We will be working with Parks & People and the city to get some trees installed. Do you want tree (s) on your street? Will you commit to watering it ? If so contact Scott Kashnow.

The WS263 is considering suggestions for signage explaining water quality importance and protection. Have ideas, bring them to the next watershed meeting. See Michelle from Parks & People at our next meeting for more information.

Logo

What do you think about having a neighborhood logo? What do you think it should be? One idea a view of the park from above. A graphic like shown or an illustration. Let's talk more about this.

Block Captains

Are you a leader, do you want to be?

Are you interested in being a block captain? contact Edith Gilliard-Canty
